

April 1, 2008

Congratulations!

****CARNES NAMED AWIS FELLOW****

Jean Manchester Biddick Professor of Women's Health Molly Carnes, also of industrial and systems engineering, was one of seven selected as 2008 fellows of the Association for Women in Science (AWIS). Founded in 1971, AWIS is the largest multi-disciplinary scientific organization for women in the United States. Carnes, nominated for her "leadership in the fight to make academia a comfortable place for women," directs the Women in Science and Engineering Leadership Institute at UW-Madison. Carnes received the honor at a reception held February 17 in conjunction with the annual meeting of the American Association for the Advancement of Science in Boston.

Take a break from the winter blahs! Refresh your mind, body and soul with notable women who share their perspectives for success in these presentations. Increase your self-confidence and enhance skills that will help you on your path to professional and personal success. Enjoy a great breakfast buffet with hot and cold items while learning and networking.

Perspectives for Success Women's Breakfast Series
